Welcome. This study on spatial planning takes approximately 40-60 minutes to complete. It consists of 3 tasks: Road Construction, Road Construction with Undo, and Number Estimation. They are divided into 6 parts, and each part takes about 5-7 minutes. You can take a short break after finishing each part.

When you are doing the experiment, please think carefully but not too long. If you have any questions during the experiment, you can find me outside. Do you have any questions?

Now you can press RETURN to read the instruction for Road Construction.
